

Amazon Q Business Lab (OCI FAQ PDF Demo)

Step 0 – Create an IAM Identity Center User

AWS Console → IAM Identity Center → Users → Add User

Username: qbusinessuser

Email: your-email@example.com

First Name: Demo

Last Name: User

Send password setup email and create user.

Assign AWS Account Access and AdministratorAccess permission set.

Step 1 – Create Amazon Q Business Application

Amazon Q Business → Applications → Create Application

Application Name: OCI-FAQ-Assistant

Description: OCI FAQ Knowledge Assistant

Wait for Status = Active.

Step 2 – Create S3 Bucket

Amazon S3 → Create Bucket

Bucket Name: oci-faq-demo-bucket

Step 3 – Upload OCI FAQ PDF

Open bucket → Upload → oci-faq.pdf → Upload.

Step 4 – Create an Index

Amazon Q Business → OCI-FAQ-Assistant → Retrieval → Create Index

Index Name: oci-faq-index

Index Type: Enterprise Index

Wait for Active status.

Step 5 – Create Data Source

Amazon Q Business → OCI-FAQ-Assistant → Data Sources → Add Data Source

Select Amazon S3.

Step 6 – Configure S3 Data Source

Data Source Name: OCI-FAQ-Documents

Select bucket: oci-faq-demo-bucket

Use Entire Bucket.

Step 7 – Configure Sync Settings

Sync Mode: Full Sync

Schedule: Run On Demand.

Step 8 – Configure Permissions and Connect Index

Create and use a new service role.

Select index: oci-faq-index

Add Data Source.

Step 9 – Sync Documents

Data Sources → OCI-FAQ-Documents → Sync Now

Wait until Sync Status = Completed.

Step 10 – Create Web Experience and Test

Web Experience → Create Web Experience

Name: OCI-Web-Experience

Authentication: AWS IAM Identity Center
Grant access to qbusinessuser.
Copy deployed URL and login.

Demo Questions:

Who is eligible to apply for OCI?
What documents are required for OCI application?
What are the benefits of OCI?
Can an OCI holder vote in India?
Compare OCI and PIO card benefits.
Summarize the OCI application process.
